

Fraser Farrell

SURVEY MANAGER

Fraser has 21 years experience in the Surveying/Construction sector in Brisbane, Australia and London, England. Fraser is currently involved predominantly in Building Construction projects.

Fraser deals with clients from the initial tender stage through to project delivery and close out.

His experience crosses all levels of construction from low rise residential / commercial buildings to 30 storey high rise towers.

SPECIALISATION

- Managing Resources
- Managing Technical Data
- Quality Assurance
- Field/Office Procedures
- Training
- Financial Management of Construction Projects.

EXPERIENCE

UQ Oral Health Centre, Herston

Brisbane UQ Oral Health Centre at the Royal Brisbane Hospital is a landmark 7 storey design by Cox Rayner Architects. The complex design and large 140m x 50m floor plates provided many challenges during construction. Fraser managed all expectations from the client, builder and sub-contractor to deliver an iconic Brisbane health centre building.

Madison Heights, Bowen Hills

Madison Heights was a 30 storey residential tower constructed in the Bowen Hills PDA for Metro Developments. Fraser oversaw all levels of project manager, quality control and survey set out on the project.

Central Village Stages 1 to 3, Fortitude Valley

Central Village has 3 x 20 storey towers with 2 basement levels. The role involved quoting, tendering, invoicing, liaising with Project Managers, Contract Administrators, Site Managers and Formen, and allocating surveyor resources as required. Fraser oversaw the Survey control/boundary establishment, shoring/piling setout, bulk and detailed excavations, monitoring, basement lift/stair cores, grids, level control, column, in-situ and precast wall setouts, verticality checks, As Built surveys and Form 16 certifications.

Qualifications

- Bachelor of Surveying, QUT

Professional affiliations

- Registered as a Graduate Surveyor with the Surveyors Board of Queensland
